

# **Web3 Decision Mini App**

Pitch Deck

## Introduction

**Web3 Decision Mini App is a Gamified “click-to-earn” Platform Designed to Drive User Engagement, Growth, and on-chain Trust. Through Interactive Tasks, Quizzes, and Proof-based Participation, Users Earn Points That Convert Into Tokenized Value Within the Web3d Ecosystem.**

## Problem Statement

- Web3 user engagement is fragmented. Most reward systems are either botted or inflated.
- Lack of trust in proof systems. Fake entries and manipulated rewards undermine community trust.
- Onboarding gap. New users struggle to find credible, fun, and transparent platforms

# The Web3 Decision Solution

Every completed task  
**Web3D points**

100% KYC verified users  
completely organic  
community.

Proof-based verification  
fake proofs disabled,  
monitored by the team

Points Convert Into  
Tokens That Can Be  
Staked or Withdrawn

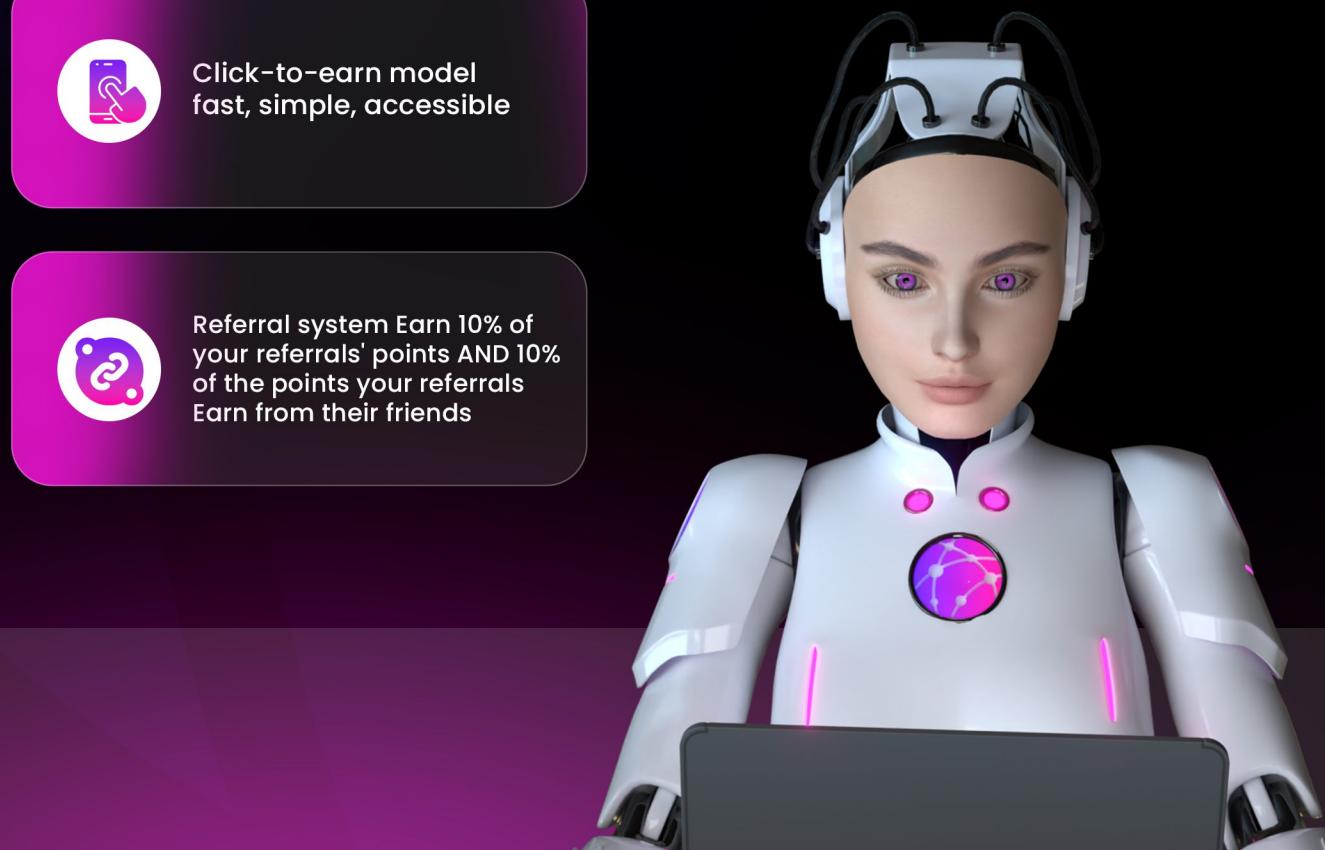

Click-to-earn model  
fast, simple, accessible

Interactive quizzes  
keep users engaged  
and learning

Referral system Earn 10% of  
your referrals' points AND 10%  
of the points your referrals  
Earn from their friends
