BENEFITS FOR \$WEB3D HOLDERS

- Staking Rewards 1
- Rewards on Service Fee 2
- Community Participation Rewards 3
- Referral Rewards 4
- Price Appreciation Potential 5
- Access to Special Services 6

1. STAKING REWARDS

Fair and High APY

Staking \$Web3D tokens allows holders to earn an attractive annual percentage yield (APY).

Staking Rates:

10K - 40K \$Web3D stakes:	9%
40K - 70K \$Web3D stakes:	11%
70K - 100K \$Web3D stakes:	13%
100K+ \$Web3D stakes:	15%

There are 30, 60, 90, 120, 240, 270 and 360 day staking options.

The penalty for early withdrawal from staking is 25% and penalty tokens are burned.

2. REWARDS ON SERVICE PURCHASES

Proportional Share of Service Fees

Those who stake \$Web3D tokens receive a portion of the fees generated from all services on the platform. These services include token creation, AI KYC, AI Auditing, business analysis, and more. The more \$Web3D tokens staked, the higher the individual's share of service purchase fees.

3. COMMUNITY PARTICIPATION AWARDS

Active participation in the Web3Decision community (e.g. Telegram and Twitter) earns holders additional \$Web3D tokens through the Community Hero Program. This program rewards active members and creates a vibrant and engaged community.

4. REFERRAL REWARDS

\$Web3D owners earn rewards by referring new users and projects to the platform. This program involves seeing a percentage of the service fees from the referred projects directly in their wallet.

5. PRICE APPRECIATION POTENTIAL

As the Web3Decision Platform grows, more projects use its services, and \$Web3D is burned, demand for \$Web3D tokens may increase. This could lead to potential price appreciation and benefit holders in terms of capital gains.

6. ACCESS TO SPECIAL SERVICES

Holding and staking \$Web3D tokens may provide priority access to certain platform features and services, such as early participation in new services or exclusive investment opportunities.

LONG STORY SHORT

HOLDING \$WEB3D TOKENS OFFERS MULTIPLE WAYS TO EARN
REWARDS, PARTICIPATE IN PLATFORM GOVERNANCE, AND
POTENTIALLY BENEFIT FROM PRICE INCREASES.

THESE BENEFITS CREATE A STRONG INCENTIVE FOR USERS TO HOLD AND
STAKE THEIR \$WEB3D TOKENS, CONTRIBUTING TO THE OVERALL GROWTH
OF THE WEB3DECISION PLATFORM, ITS COMMUNITY, AND THE SUCCESS
OF PLATFORM USERS.
